Allowable Subject Matter

Claims 1-18 are allowed.

The following is an examiner's statement of reasons for allowance: regarding claims 1 and 7, patentability resides, at least in part, in the pair of connecting portions of the shell, the normally closed terminal and the common terminal being placed at horizontally symmetric positions with respect to a vertical plane passing a center or nearly the center of the shell; and a top surface and a bottom surface of each of the connecting portions are formed into vertically symmetric shapes with respect to a horizontal plane passing centers or nearly the centers of the connecting portions, in combination with the other limitations of the independent claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
